

Speaker: Pastor Dr. Geeter

Date: March 13, 2026

Jesus: The Creator of H₂O and the Cure for the Ultimate Dehydration

In this pivotal session, **Pastor Dr. Geeter** presents a "Molecular Christology," challenging the church to see Jesus not merely as a historical figure, but as the active Architect of the elements. When we examine the H₂O molecule—two parts hydrogen, one part oxygen—we are looking at a divine blueprint. Jesus' authority over water (turning it to wine, walking upon the waves, calming the storm) was not a suspension of natural law, but the Creator exercising His proprietary right over His own invention.

To understand the "Ultimate Dehydration," we must first acknowledge that the One who engineered our physical thirst is the only One capable of satisfying our spiritual drought. If the body is 60-70% water, the soul is 100% dependent on the Word.

The Fulfillment of Prophecy: The "I Thirst" Decree

The message pivots on the profound scriptural "Hinge" found in **John 19:28**. As Jesus hung upon the Cross, knowing that all things were now accomplished, He said, "I thirst." This was not merely a physical observation; it was a deliberate fulfillment of the architectural plan laid out in **Psalms 22:15** and **Psalms 69:3, 21**.

Pastor Dr. Geeter argues that Jesus endured the ultimate physical and spiritual dehydration so that humanity would never have to. By drinking the "Cup of Wrath" in **The Garden of Gethsemane**, He became the parched sacrifice. This fulfillment of prophecy serves as a warning to the modern church: we are entering the era described in **Amos 8:11**—a famine not of bread, but of *hearing* the words of the Lord.

The Mountain of Grace vs. The Valley of Deep Suffering

A core theme of the **NRBB synopsis and NRBI curriculum** is the transition from the "Valley of Suffering" to the "Mountain of Grace." **Pastor Dr. Geeter** draws a parallel between physical dehydration symptoms and the spiritual state of the believer disconnected from the Source.

Many find themselves in a "desert season," trying to survive on "digital soda" or social programs. However, these substitutes only increase our thirst. The "Hinge" of Grace is realizing that the Creator of the H₂O molecule is present in your desert. Just as the Israelites were sustained by the **Rock in the wilderness which is JESUS**, the modern believer must realize that Grace is a person, not a concept. We do not climb out of the valley; we drink from the Source that has already descended into the valley with us.

Thirsting for Righteousness: The New Slogan for the Soul - Matthew 5:6 The message

concludes with a call to "Systems Alignment." Following the pattern of the deer in **Psalm 42:1-3** and the Samaritan woman at the well in **John 4**, we must audit our desires.

The "Ultimate Dehydration" is a choice. **Pastor Dr. Geeter** challenges the congregation—from the youth to the seasoned elders—to commit to a new standard: **Thirsting for Righteousness**. As **Matthew 5:6** promises, those who hunger and thirst for righteousness *shall* be filled.

Closing Reflection

The "Ultimate Dehydration" ends where the Word begins. As we archive this session, let it serve as a technical manual for spiritual survival in a parched age. Return to the Architect. **Return to the Living Water (The WORD).**
